CAPTAIN GARNETT D. RIPLEY, a prominet farmer of Henry county, has been indicted, arrested, handcuffed and taken to Frankfort and thrown into Jail, charged with the murder of Goe-BeL, although he was not in Frankfort BEL, although he was not in Frankfort until the day after the shooting. An it was reported that General BASIL W. DUKE of Louisville, General DAN COLLER of Lancaster, Captain STEPHEN D. SHARUE, Postmaster F. CLAY ELEN And ex-Treasurer STANLEY MILWARD of Lexington, had also been incided for the same murder. Learned lawyers say that there were "gross irregularities" in the formation of the Grand Jury that found the indictment against Captain RIPLEX; but past experience at Frankfort and Georgetown shows that "irregularities" cut no ice when an anti-Goebelite is on one side and the Campbell-Cantrill-\$100,000-Blood-Money-Fund is on the other.

THREE "highly connected" young

There "highly connected" young men "of previous good character" were sentenced the other day at Paterson, N. J., for assaulting and murdering a poor mill girl. In passing sentence Judge Dixos said—"You stand convicted of murder in the second degree. Had you been found guilty of murder in the first degree the punishment would have been death, but the leniency of the Jury has been death, but the leniency of the Jury has been death, but the leniency of the Jury has been death, but the leniency of the Jury has been death, but the leniency of the Jury has been death, but the leniency of the Jury has been death, but the leniency of the Jury has been death, but the sentences will destroy your lives, obliterating every prospect of an honorable existence among the people. The Court cannot make any distinction, but must sentence you for this crime. I trust the fearful consequences from this crime will help young men and young women of this community and point out to them that they cannot hope to secure happiness outside of virtue and the state frison at Trenton at hard labor for a term of thirty years."

These "dudes" belong to wealthy families, and if their offense had been committed in Kentucky—the outrage and murder of a poor working girl— they would have been turned loose. Thank Gop and New Jersey for "Jer-rese Institution".

THE GIGANTIC DEAL

Andrew Carnegie Disposed of the Control of the Carnegie Co. to a Syndicate.

A BILLION DOLLAR STEEL COMBINE.

nouncement Caused Wide-Spr Attention Among the Business Men in New York.

J. Pierpont Morgan and His Asso ciates Are at the Head of the New Concern—Rapid Ad-vance in Stock.

New York, Feb. 7 .- The announce ment that Andrew Carnegie had dis-posed of the control of the Carnegie Co. to J. Pierpont Morgan and his associates attracted widespread atco. to J. trerpont Morgan and his associates attracted widespread attention among business men here. Not only Wall street, but the entire ested in the transactions connected with what the local newspapers denominate "a billion dollar steel combine." It was the absorbing topic in every brokerage office, and under persistent repetitions of the report the stocks of the leading steel comparise made rapid and violent adformation is concerned there is practically none to be had from Messrs. Morgan and Carmegie. Mr. Morgan declined to confirm or deny the report, while Mr. Carnegie as well would make no statement whatever.

No Denial Attempted.

No Denial Attempted.

The fact however that these two men permitted the reports to continue in circulation without ever attempting a denial was generally regarded as a strong indication that they were well founded, and there was something in the manner in which the reports were put forward that added to the general public condidence in their credibility. Nu that added to the general public con-didence in their credibility. Nu merous "semi-official" statements were put forward, but those could not be traced back to the principal in the deal. According to these re-ports J. Pierpont Morgan is at the head of the syndicate, which as mum moth steel combine, to include the Federal Steel Co., the National Steel Co., the Steel Hoop Co., the Sheet Steel Co., the Amorian Steel & Wire Co., and the American Steel & Wire Co., and the American Tin Plate Co. Price Vol Made Knows.

Price Not Made Known.

The consensus of opinion among bankers and brokers seems to be what Andrew Carnogie had really done was to sign a contract to deliver his stock holdings in the Carnogie Co. LJ. Pierpont Morgan & Co. All statements as to the price to be paid by Mr. Morgan and the men associated with him in the transaction appear to be mere idle speculation. Some business men who in the natural order of things would not be particularly friendly to a huge combine of this character did not hesitate to call attention to the fact that in the spring of 1899 derive were that in the very positive rumors that the Carnegie interests were to be t ferred, and that an option had that ly been given by Carnegie, eftheless the deal fell through.
